Proportion of VET students with an **improved employment status after training**

2021 n = 250

This measure is based on student responses to seven questions. Students had an “improved employment status after training” if they were employed before training and afterwards had greater responsibility, a promotion, started a new role, earned more, worked more hours, gained extra skills, completed an apprenticeship/traineeship or set up a business. For those who were unemployed, they had “improved employment status” if they got a job or set up a business.

The response options for this measure were simplified in the 2020 Student Satisfaction Survey. To allow for comparison, the historical time-series have been revised to be consistent with the 2020 methodology. Consequently, the numbers for 2019 are different to the ones reported prior to 2020.
